Not online in this game.. Hey I liked this game alot however I have not come anywhere near completing it. The key bindings are very strange, they need some work. I would recommend this game but I still have more to play first in order to give it a definite good or bad rating. Hopefully you guys can see some of the game-play with the video below.

<https://www.youtube.com/watch?v=AA9qd8xBk14&feature=youtu.be>. to put this in a brief and simple manner in a way that most everyone can understand. \u2665\u2665\u2665\u2665ing a laundry machine is as fun as this game. i'd much rather get my\u2665\u2665\u2665\u2665\u2665covered in detergent than ever play this game again.

it is broken. you can glitch the camera through walls. the "dialogue" consists soley of broken english and unfinished trees. the only redeeming quality of this game is the model of the main character (which is probably a stolen model, too). the enemies are a joke at best. you can outrun them at an incredible rate. they barely hurt you and are just really weak.

i attempted to try the "kill them all mode." and the only reason why is to see if it had any reference to Metallica's Kill Em All album. I went in expecting literally nothing and was still soul-shatteringly disapointed. instantly my ears were bombarded with painful. painful excuses of music which I immidiately turned off. \u2665\u2665\u2665\u2665ing pedobears straight from 2010 started sprinting at me. i ran to pick up the gun. which leads me to my final point as to why this is probably the worst game ive ever played.

the guns are broken.

the guns are \u2665\u2665\u2665\u2665ing broken.

you'll pick it up then check the bindings to see what number you have to press to get the gun equipped. your eyes scroll through the options. you find the rifle label. and your eyes scroll to the right.

&.

\*&\*.

how in the name of \u2665\u2665\u2665\u2665 do you press &.

what

the

\u2665\u2665\u2665\u2665.

you try to rebind it but it instantly binds it back. its like it knows you want ot solve the problem.

just. save yourself the time and dont get this game.. I like this game. It was charming and i dont know why. there are a few bugs like shooting the shotgun in the pause menu will release all shots at once and you keep all of your health packs from your past failed attempt at a level other than that it was fun. I really do like this game and i cant wait to see what else will be added.. Overall,this is a good game.But there are too many bugs.The phenomenon of wearing a model in the game is very serious.In the first level with a skill can fly out of the map. In the game level,you can add a few more medicaid packages.You can add an energy shield to the main character. This is a interesting game.Believe you can do better.
